PORTFOLIO

The portfolio

CEMI.ai · cemi.ai/investors

The group is the sum of these properties plus the pipeline that built them. An investor at group level holds a position across all of it; an investor at initiative level holds one of the cards.

Every card below is generated from CEMI's live ecosystem registry — the same single source of truth the sites, the chatbots and the ecosystem footer read. Nothing on this page is typed by hand, so nothing on it can drift from what the group actually operates.

15+ live sector initiatives and 5+ in-house services are listed below.
